

## PROSPECT

### JAHMILL JENKINS

Year of Birth	Birthday	Height	Weight (lbs)	
1992		5'6"	140	
Class Level	School			
2011	Elizabeth High School			
Play Level	D2 to Low Major D1			
Commentary	Undersized point guard, long arms for a little guy, really quick with the ball, great lateral quickness, foot speed is good, changes direction well, a decent on the ball defender but gets lazy at times, needs to develop a jump shot, gets in the lane, tries to finish strong in the lane all the time but gets his shot blocked most of the time due to his size. He played well at the RHI All Star game.			
Rating 1 to 5, 5 highest

## PROSPECT

### HENRY AJUDUA

Year of Birth	Birthdate	Height	Weight (lbs)	
1991		6'8"	206	
Class Level	School			
2010	Mount Zion (Nigeria)			
Play Level	D2 to Low Major D1			
Commentary	A very physical kind of player, very solid physique, a little bit mechanical, one can say he is undersized depending on what level of college ball he will be playing. He is not undersized if he is playing on a low major D one school; he is if he is playing a mid to high major level of college basketball. Runs the floor very well, athletic, plays with his back to the basket, would sometimes face up but very mechanical, defends very well, good lateral quickness from side to side, his offense is a little behind his defense. He did an okay job during the All-Star game.			
Rating 1 to 5, 5 highest

## PROSPECT

### ISIAH BYOD

Year of Birth	Birthday	Height	Weight (lbs)	
1990		6'6"	220	
Class Level	School			
Juco So	Erie Community College			
Play Level	D1 Solid Mid Major			
Commentary	Big body, long arms, a little bit heavy, skilled, can put the ball on the floor for a big. Plays with his back to the basket, uses his body very well, a banger, can stroke it from within the elbow, a little bit slow footed, a decent position rebounder, does not rebound out of his area...needs to do more of that, he did very well at the showcase, played well at the All-Star.			
Rating 1 to 5, 5 highest
